

Sponsor an Econo Suzuki APV ambulance conversion

Empower mobility, enhance visibility, save lives

Sponsoring an ambulance for Yayasan Sole Family Bali is not just about facilitating transportation; it's about being a part of a mission that touches lives across Bali. Your sponsorship ensures comfortable, safe and dignified transportation of very sick or disabled patients for whom travelling otherwise is very painful or difficult, essential home visits to families in need, hospital and emergency transport service.

The scope of vehicle use:

- ◆ Home visits to families in need.
- ◆ Transport services to hospitals.
- ◆ Ability to transport the most sick and disabled more safely and comfortably. Patients are often in pain sitting up in a car or not able to attend vital appointments. Sometimes they are transported in the back of pick up trucks by their family exposed to the elements, very uncomfortable and undignified. Ambulance will facilitate us to monitor and care for them more easily during transportation.
- ◆ Patients in some cases can be treated when necessary on site inside the ambulance.

Sponsorship details: Purchase price IDR 300M / USD 19K including cost of stickers.

- ◆ **Brand visibility and community Impact:** This is an unparalleled opportunity for brand awareness associated with a noble cause. As our vehicles are extensively used for various purposes across Bali, your brand prominently featured on the vehicle will gain significant exposure.
- ◆ **Experiential engagement:** We welcome your team to join Sole Family excursions to witness firsthand the positive impact of your sponsorship on the community. We welcome small groups (max 4 pax)
- ◆ **Social media recognition:** One of our commitments is to share your generous contribution and brand story with our social media followers and supporters, ensuring great positive exposure both within Bali and to our international audience who visit the island regularly.

CV. SARANA MOTOR AMBULANCE MODIFICATION

MOBIL AMBULANCE ECONO SUZUKI APV EXTERIOR & INTERIOR MODIFICATION

- A. Oxygen Delivery System
 - 1 Pcs Oxygen Cylinder 1M³
 - 1 Pcs Oxygen Regulator with humidifier & flowmeter
 - 1 Pcs Nasal Oxygen Cannula with Tubing for Adult
 - 1 Pcs Oxygen Mask with Tubing for Adult
- B. Attendant seat with box space for equipment
(Bahan Jok : Multi Flex dilapis ABS Cetak dengan Jok Cetak)
